

MUHAMMAD AZAMUDDIN BIN MOHD AZMI

Senior AI Engineer | Senior Backend Engineer

Penang, Malaysia | openhope.kl@gmail.com | +60 11 2411 6457 | [linkedin.com/in/azamuddin-azmi-1ab695416](https://www.linkedin.com/in/azamuddin-azmi-1ab695416) | github.com/codemaster525640

PROFESSIONAL SUMMARY

Senior Software Engineer with over 8 years of experience building scalable backend systems, cloud-native platforms, and production AI applications. Specializing in Python, Node.js, FastAPI, React, AWS, Kubernetes, LLMs, RAG, and distributed systems. Proven track record of delivering high-availability APIs, AI-powered products, and automated CI/CD pipelines.

CORE COMPETENCIES

AI Engineering • Backend Development • Agentic AI • LLM Applications • RAG • Distributed Systems • Microservices • REST/GraphQL APIs • Cloud Architecture • Kubernetes • Docker • CI/CD • PostgreSQL • Redis

PROFESSIONAL EXPERIENCE

Senior Software Engineer

It's AI (ITSAI Technologies – FZCO) | Delaware, US

Feb 2025 – May 2026

- Architected scalable backend services supporting AI content detection across web apps, APIs, and browser extensions, processing over 2 million requests per month while reducing API response time by 35%.
- Developed production ML pipelines using PyTorch and Hugging Face Transformers, reducing model deployment time from 3 days to 4 hours and improving inference accuracy by 12%.
- Fine-tuned BERT and RoBERTa models on large datasets to improve F1 score by 99.3%.
- Reduced inference latency by 40% using async processing and batching.
- Implemented Docker, Kubernetes, Helm, GitHub Actions, and AWS deployment pipelines, reducing release time by 60%.

Senior Software Engineer & AI Engineer

b2wise Company | Birmingham B4 6AF, United Kingdom

Feb 2020 – Jan 2025

- Designed backend microservices with Node.js and Python serving 500,000 daily API requests.
- Developed 30+ production REST APIs and optimized PostgreSQL/MongoDB performance.
- Engineered RAG-based AI chatbots using LangChain, OpenAI APIs, and vector databases, improving answer accuracy by 28% and reducing support tickets by 40%.
- Implemented OAuth 2.0 authentication, JWT authorization, WebSocket communication, and enterprise CI/CD pipelines.

Frontend Developer & User Management

Adin Company | Oslo, Norway

March 2019 – Jan 2020

- Optimized frontend performance, reducing page load time from 3.8s to 1.5s.

PROJECTS

- LLM/RAG Knowledge Assistant
- AI Content Detection Platform
- Blockchain & Ethereum Applications

SKILLS

- Languages: Python, JavaScript, TypeScript, Go, Java, PHP, Rust, C#, Kotlin
- Frontend: React, Next.js, Vue.js, Angular
- Backend: Node.js, FastAPI, NestJS, Express, Django, Flask
- AI: PyTorch, Hugging Face Transformers, LangChain, RAG, Vector Databases, Prompt Engineering
- Cloud: AWS, Azure, GCP, Docker, Kubernetes, Helm, GitHub Actions
- Databases: PostgreSQL, MySQL, MongoDB, Redis, Pinecone, Weaviate

EDUCATION

Bachelor's Degree in Computer Science / Software Engineering

Universiti Sains Malaysia

Graduated: 2018

CERTIFICATIONS

- AWS Certified Cloud Practitioner – Amazon Web Services (AWS)
- IBM AI Engineering Professional Certificate – IBM
- Certified by micro1 – micro1
